

NOTES (by Jakes Construction):

1. Blue area indicates pipe position to pull from Pit 8 to Pit 9.
2. Access/egress from residences will be maintained at all times.
4. Short duration (3 minute) closure at Ashwell/Deans intersection will be required to drag pipe from fusing location on gravel shoulder north of Deans (red area) to pull pits.
5. Please note Pit 8 location has changed from City Permit #90996, from north side of road to south side; however, SLAT area remains consistent.
6. Work scheduled for Friday, March 16, 2018

- GENERAL NOTES**
- All traffic control shall conform to the MOTI Traffic Management Manual for Work on Roadways 2015
 - TCP will maintain radio communication to coordinate Single Lane Alternating.
 - TCPs will monitor driveways and assist residents when necessary.
 - Communication and accommodations will be made with residents of 8880 Bellevue Drive.
- GENERAL NOTES**
- Dimensions shown are in meters and are the minimums except as otherwise indicated
 - All permanent signage that will conflict with this site will be covered or removed while the works are in effect
 - Active Work Zones and Hazards shall be delineated to protect workers and the travelling public
 - Tubular markers and signs will be double based and well secured during windy conditions
 - Distances may be adjusted due to urban block length
 - These pages are best printed on a Tabloid (11x17) page size
